

SHILED INSURENCE DASHBOARD

EXECUTIVE VIEW

The **Executive View** dashboard provides C-suite leaders with high-level, actionable insights into revenue, customer growth, and policy performance. For a landing page, this section must immediately demonstrate how a decision-maker can assess corporate health and market trends in under 60 seconds.

SALES VIEW

The **Sales View** dashboard delivers tactical, granular insights for sales directors and regional managers. While the Executive View focuses on *overall health*, the Sales View focuses on *performance drivers*—specifically tracking customer acquisition channels, policy updates, and regional sales efficacy.

AGE ANALYSIS

The **Age Group Analysis View** focuses entirely on customer demographics. It helps marketing directors, product managers, and underwriters understand *who* is buying insurance, how behavior shifts with age, and where to allocate advertising budgets to maximize ROI.
